

## SUDRA: The very practical tripod fixation for small power packs

- If the lamp stand is moved, the power pack always comes along automatically.
- There are less annoying cables on the floor.
- The weight of the power pack on the lamp stand helps to make it more stable.

Technical data:

- Inner measures:  
Length: 15.2 cm  
Width: 8.6 cm
- Max. aperture of clamp:  
45 mm for flat constructions and for tubes with a diameter of 40 mm
- Weight: 960 g

Detail of SUDRA with power pack on telescopic upright

Very handy lamp stand made of elements from the COMBITUBE system\*, consisting of a folding tripod with a telescopic upright (STAPU), together with a lamp and a power pack: they build up a mobile unit !
